GET AHEAD IN
**NURSING HOME
LAUNDRY**

WE HELP YOUR NURSING HOME

BE CLEAN WITH HOSPITAL-GRADE HYGIENE

Impeccable laundry hygiene is critical to nursing and care homes. Improperly cleaned linen and garments increase the risk of spreading disease and infections. Poorly processed laundry potentially carries a huge cost. It's time to upgrade your linen to the same high hygiene standards as all your daily care.

BE KIND WITH HOTEL-GRADE FABRIC CARE

Quality laundry helps keep your home happy. Residents wear their own clothes, sleep in fresh linen, and dry off with soft, fluffy towels. All linens, including very delicate garments, need good care. That's how residents enjoy the comfort they deserve. Neat pressed uniforms help your carers look and feel confident.

HOW PRIMUS HELPS YOUR CARE HOME GET AHEAD

In-house laundry gives you complete control over hygiene. It's faster, safer and more cost-effective than transporting it to a third party to process.

SECURE LOAD TRACKING

Trace-Tech digital tracking gives visibility into each variable of the laundry process for traceability.

Better management = Greater safety, more control

USER FRIENDLY

Primus laundry management processes do all the hard thinking. Plus we provide complete training programs for every user.

Minimum training = Lower costs, more control, better efficiency

ECO-FRIENDLY

We aim to meet or exceed stringent water and energy consumption regulations and standards.

Using fewer resources = Lower costs, higher efficiency

BARRIER HYGIENE*

Your Primus laundry completely separates dirty from clean which helps prevent the spread of infectious diseases like colds and flu.

Maximum hygiene = Healthier residents, higher satisfaction

FAST TURNAROUND TIMES

Our powerful, smart equipment cuts laundry time. Sensors and load analysis optimize processes and resource use.

Maximum efficiency = Lower costs, more control, better service

SUPERB FABRIC CARE

Wash and care for residents' wool, cashmere, silk and other delicate garments in-house with Softwash technology. Linens last longer too with Primus.

Longer lasting fabrics = Better service, higher satisfaction

INTEGRATED SYSTEM

Bring all your laundry in-house – even large flat linen folding. Say goodbye to the uncertainty and cost of third party suppliers.

No outsourcing = Lower costs, more control, greater flexibility

SPACE SAVING EFFICIENCY

Primus equipment comes in a wide range of capacity and footprints so your laundry is precisely matched to your needs.

Save space, more capacity = Lower costs with more efficiency

* For example, France's retirement home laundry standard NF X50-058 mandates isolating dirty and clean laundry, using barrier washers and ensuring traceability. A Primus installation will help you comply with this standard.

HYGIENIC BARRIER WASHER

PREFERRED BY CARE HOME MANAGERS

Primus FXB 24 to 28 kg barrier washers are used in many care homes around the world. They are at the heart of an in-house hygienic laundry system that works hard and saves costs.

COMBINING HOSPITAL HYGIENE AND HOTEL QUALITY FABRIC CARE

Long-lasting machines

- Tested for 30,000 cycles
- All stainless steel cabinet
- Premium components only

Extreme efficiency

- High spin
- Fully programmable control – Xcontrol Plus™
- Easy Soap™ – liquid soap connection
- Large drain valve

Ergonomics

- Easy access to all important parts from all sides
- Automatic door positioning
- Large doors for easy loading and unloading
- Patented easy-to-reach soap hopper
- Patented inner door lock for safety

Sleek design

- Innovative freestanding softmount design
- Completely stainless-steel cabinet and drum
- External lubrication system

Handy upgrades

- Trace-Tech® traceability software and networking system
- USB & RS485 side panel sockets
- Liquid soap pumps
- Water recovery option with second drain valve
- Steam heating version
- Water sample tap
- Second display panel
- Extra warning signals (orange light or traffic light)

OPTILOAD

PROVEN PRIMUS INNOVATIONS FOR BETTER LAUNDRY

WASHER/EXTRACTORS

IT'S THE WORLD'S MOST ADVANCED PRECISION LAUNDRY CONTROL SYSTEM.

- Large interface screen instantly gives users a complete understanding of the status of the load
- Simply choose the right program for the fabric type/load
- Easily and freely programmable with up to 99 on-board programs
- Backup and upload new programs instantly via USB

OUR TRACK-AND-TRACE SYSTEM ALLOWS FULL QUALITY CONTROL BY PROVIDING RECORDS AND STATISTICS FOR EACH WASH LOAD.

- Easily track washing cycles
- Review the results of custom programs and develop the perfect cycle for your needs

WEIGHT SENSOR PRECISELY ADJUSTS CONSUMABLES TO SAVE RESOURCES AND INCREASE PRODUCTIVITY.

- Audio-visual alert system
- Optimum water, energy and detergent inputs automatically calculated according to load weight
- Washer cannot be overloaded

PRIMUS CASCADE DRUMS OFFER MULTIPLE ADVANTAGES.

- Water is extracted more efficiently from the load
- Unloading is easier because linen sticks less to the drum
- The shape of the holes creates a mechanical action that produces a better washing result
- Perforated ribs maximize the soakage of the laundry and provide additional mechanical action to reduce water consumption without reducing wash quality
- Our Eco system optimizes water levels for economy and environmental friendliness without losing washing quality. On our FX lines, this means as much as -15% water, -20% energy consumption and -25% residual moisture*

DRYERS

- Our innovative humidity sensors protect your linen from over-drying. This saves energy and ensures you always get outstanding results
- Using a combination of radial and axial airflow, this innovation reduces energy consumption while maintaining outstanding drying performance
- PowerDry perforated drum ribs maximize enforced air flows through the drum reducing the drying cycle of your load

IRONERS

This feedback sensor automatically adjusts ironing speed according to the temperature of the ironing cylinder.

- Perfect contact with the ironing cylinder guarantees linen is perfectly dry
- No need to wait or guess when ironer is ready
- Linen comes out perfect

*Compared to previous models

HOW WE PUT SOFT INTO HARD WORKING LAUNDRIES

SOFTMOUNT WASHERS FOR UNIQUE HIGH PERFORMANCE

We achieved a world breakthrough in washer-extractor design with our softmount washers.

These laundry legends deliver the powerful performance of much bigger machines, without the need for expensive, heavy-duty foundations.

SOFTWASH® WETCLEANING FOR IN-HOUSE DRYCLEANING

SoftWash® technology is the revolutionary clean and care technology for luxury fashion and delicate fabrics. With SoftWash you can offer your residents premium cleaning services right there on your premises to take care of their delicate garments that they like so much.

The high-performance treatment removes stains fast, brightens colours and softens fibers. Garments smell fresh, are soft to touch and look and feel like new.

SHOWER-JET™ ELIMINATES MECHANICAL ACTION

Only SoftWash features innovative Shower-Jet™ cleaning. Instead of a spinning drum, the system gently moves water around the garments.

Garments are coated with special protective detergents that protect against damage, enable safer drying and avoid colour bleeding. Garment life is prolonged too.

Shower-Jet™ technology

Shower-Jet

The Shower-Jet™ recirculation pump takes water from the bottom of the drum and pumps it upward. Drum rotation is unnecessary.

A BETTER LAUNDRY EXPERIENCE FOR A FRENCH NURSING HOME

THE CHALLENGE

EPHAD de Cesny-Bois-Halibout is an independent 74-resident care home with two Alzheimer units in France. The home decided to upgrade their laundry after a relocation. The objective was to build a cost-effective laundry process that would meet RABC (Risk Analysis and Biocontamination Control) standards.

THE PRIMUS SOLUTION

Primus designed and installed a clean/dirty separation facility featuring 18 & 24kg FXB barrier washers with Xcontrol Plus™ programming and Trace-Tech software.

RESULTS

Savings on costs and resources

Fully compliant with RABC standards, the new laundry needs less space and is cheaper to operate than the non-hygienic facility it replaced.

Better time management

Machines can be loaded at night and programmed to start early in the morning. Staff arrive to find the laundry ready for drying and folding.

Happier residents and staff

The better-organized facility means every resident garment gets optimum care. Laundry is faster and easier to process, and results are better.

“Our laundry now complies with hygienic standards ... and our residents are very happy now as they get their laundry back much faster than before.”

Stephane Tillard,
Director of EHPAD de Cesny-Bois-Halibout

“Now I leave in the evening, program the machine, and when I arrive in the morning it's all done, ready to unload.”

Maria Correia,
Healthcare Assistant

LAUNDRY PEACE-OF-MIND FROM THE WORLD LEADER

Choosing Primus gives you access to the resources of Alliance Laundry Systems for all your laundry solutions needs in the days, months and years ahead.

Alliance Laundry Systems makes the world cleaner as the premier provider of laundry solutions. We deliver leading performance in commercial laundry through our family of brands, including Primus. Laundry is our sole business.

Alliance leads the world in commercial laundry sales, product range, global reach and R&D investment. We serve more than 140 countries with a team of 3,000+. Check out the advantages you enjoy with us:

■ SUPERIOR TECHNOLOGY

The world needs faster, easier, better laundry. In recent years, we've invested over EUR264 million in R&D to make it happen. Our global team of laundry scientists, engineers and designers are dedicated to purpose-driven laundry innovation.

■ STRONGER NETWORK

You're never too far from better laundry, thanks to expert Alliance teams in 14 strategic locations worldwide and over 1,200 specialist commercial laundry distributors. No matter where in the world you are, big help with big laundry is always within reach.

■ BUSINESS AND FINANCIAL SERVICES

We aim to make laundry as cost-effective and rewarding as possible. In some regions we support our customers with comprehensive financial services. In the past 20 years, we have helped laundry entrepreneurs grow with over EUR1.7 billion in loans.

■ COMPREHENSIVE TRAINING

Alliance Laundry Systems University offers training for everyone involved in the laundry process. Our laundry learning programs include operator training, service schools, maintenance seminars, business training and much more.

■ AWARD-WINNING CUSTOMER SUPPORT

Our outstanding customer service is dedicated to helping you develop the most efficient laundry operation possible – and keeping it running at peak efficiency. Order Alliance Genuine Parts today and experience our exceptional service for yourself.

■ MEASURABLY BETTER

To get the excellence you deserve, you can rate our services at every interaction. If you're not happy, let us know and we'll make it good. Were we helpful? Share your approval. Our team thrive on a positive vibe. Understanding your satisfaction helps us improve our performance.
